—

The weather is still clear. The temperature is mild during the day, with a light breeze at night.

The river commenced rising again last night, and has risen three inches. The Mississippi is still full of ice, and no boats have arrived or departed from or to St. Louis since our last report. One or two are expected from that port to-day.

Business is fair.

The Mississippi is falling at St. Louis, and pilots report only six feet above Cairo, but are not very certain of the depth, as the ice makes soundings difficult.

The Ohio is again rising at Pittsburg, with nine feet in the channel. It is falling slowly at Cincinnati and Louisville, with ten feet in large in the Diana chute over the falls, and nine feet through the open span of the bridge. If the bridge were completed, no large boats could cross the falls at this stage of water without lowering their chimneys. This would cause them to make so little steam that they could not stem the current in ascending.

The Argosy, Captain Schenck, burst her steam-pipe near Morganza, a short distance above New Orleans, on Sunday last, wounding and scalding two white deck-hands, and two negro firemen. No passengers or officers were hurt.

After the Richmond had run into the Wild Wagoner, as reported yesterday, she saved her from sinking, and now claims salvage on her cargo of 1,000 bales cotton. A suit for damages will probably offset her claim for salvage.

The Fayette is the regular Cairo and Evansville packet this evening.

The Indians is expected here to day for New Orleans.

Capt. Charles T. Hinde is agent for the above boats.

The Paducah and Evansville packets are doing a good way business, in freight and passengers, but do not bring up very much for reshipment, as the through boats are able to carry all the freight offered for ports beyond Cairo.

## A GOOD REASON FOR THE CAPTAIN'S FAITH.

## —O—

## Read the Captain's Letter and the Letter from his Mother :

## Benton Barracks, Ga., April 30, 1869.

## DR. JOHN BULL—Dear Sir: Knowing the efficacy of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case:

I was wounded about two years ago—was taken prisoner and confined for sixteen months. I have moved so often, my wounds have not healed yet. I have not seen a doctor since I was wounded, I am short of money, my general health is impaired, and I need something to sustain me. I have no faith in your Sarsaparilla than in anything else, I wish that that is genuine. Please express me when I send bottles, and oblige

CAPT. C. P. JOHNSON.

St. Louis, Mo.

P. S.—The following was written April 20, 1869, by Mrs. Jennie Johnson, mother of Capt. Johnson:

DR. JOHN BULL—Dear Sir: My husband, Dr. C. P. Johnston, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson in my care. At thirteen years of age, he was a strong, dark-haired, manly, truthful boy, who had some knowledge of medicine, and a good deal of common sense. I have ten years recommended him to many in New York, Ohio and Iowa, for scrofula, fever sores, and general debility. Perfect success has attended it. The cure effected is in case of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His friends were terrible, but I believe he will recover. Respectfully yours,

JENNIE JOHNSON.
